

## HALT PLAN TO HAVE ONLY ONE FIRE COMPANY

Lappen and Laabs Lead Council Fight to Centralize Fire Department.

MORE VOTING PRECINCTS

Mayor Appoints Committee to Divide Present Precincts and Make Report.

The plan of centralizing the fire department under one roof and one head, which is being done in many cities, was given a body blow at the meeting of the common council at the city hall Wednesday evening when a motion prevailed for the opening of bids for the new engine house in the Fourth ward.

The motion was preceded by a lively discussion led by Alderman Laabs, who favored centralization, on the ground of efficiency and economy. He said with the department motorized and with the two platoon system, which is to be adopted, the department could render better service by being centralized than by being divided. Alderman Lappen was of the same opinion.

Alderman Smith was opposed to centralization and called attention to the danger of the draw bridge being open when the fire department wanted to get across. He said he traveled Lake street as often as anybody and that he was often delayed by the bridge being open. Chief McGilgan was asked how many times the department was delayed by the bridge being open during the 26 years of service and answered very few times.

**Pleas for Ward**  
Alderman McGilgan of the Fourth ward made a strong plea in behalf of an engine house for the taxpayers of that part of the city. He said that the ward was growing, that a new \$500,000 hospital was soon to be built and that conditions warranted adequate fire protection. Alderman Meyer was in favor of centralizing the department and Mayor Laves suggested the present as the proper time to try out the new plan. Chief McGilgan said that if the city did not intend to increase the number of firemen it would prefer to have them centralized as at present as it would cripple the force to send any to the Fourth ward. "We haven't men enough to man the present companies," he said.

**Many Bids Submitted**  
The bids submitted were: Appleton Construction company, \$11,195; M. Boldt & Son, \$10,400.70; Lange & Spritzer, \$9,572; Hoffman Construction company, \$7,985; George Ashman, \$8,565; Fred Hoeppner & Sons, \$8,730; Fraser Lumber and Manufacturing company, \$10,122. The wide variance was due to whether plumbing, heating, electric wiring, etc., were included. Plumbing bids were submitted by William Wenger, \$647; Weisse & Bauer, \$950; and Ryan and Long, \$718. The bids were referred to the city engineer who was instructed to tabulate them and report at the next meeting.

The first step toward a one man assessor who is to be appointed instead of elected by the people, was taken in an ordinance which was read for the first time and ordered published. A petition signed by five property owners for the granting of Gilmore street from Story to Mason street was referred to the street committee.

**More Voting Precincts**  
A committee consisting of Aldermen Hanson, McGilgan, Smith, Murphy, Meyer and Fiedler was appointed by the mayor to divide the present voting precincts and report at a succeeding meeting. A license was granted to the Non Commissioned Officers club to hold a dance at the armory next Wednesday evening. Accounts amounting to \$6,135.45 were allowed. An adjournment was taken until next Monday evening.

## MINNESOTA FARMERS DRAFT FARM PROGRAM

By United Press Leased Wire  
St. Paul, Minn.—Executive of the Minnesota farm bureau federation today were drafting a definite agricultural program for Minnesota and will move its adoption at a general session tomorrow.

L. E. Potter, V. E. Anderson and Thomas E. Cashman have been working on a program for many weeks and reported their findings to the board of directors and executive committee today.

Executives of the federal were so enthusiastic over the prospects of a definite farm program for Minnesota, they believe the program may be made a basis for a national program to be framed at Indianapolis, Dec. 6, 7 and 8 when the National Farm Bureau federation and a number of agricultural experts are to discuss the state meeting tomorrow and Saturday.

## NO HOPE FOR RECOVERY OF WOUNDED NEGRO MINER

By United Press Leased Wire  
Darlington, Ky.—The death list in the Arnold mine fire here was expected to reach seven today. All hope was given up for the recovery of Thomas Gant, negro, who was injured by falling slate. Nine others taken from the mine are expected to recover.

Six men, three of them white, were dead when rescuers reached the entombed miners yesterday.

## BELGIAN IS HEAD OF WORLD LEAGUE

PAUL HYMAN

Geneva, Switzerland.—Paul Hymans, just elected first president of the League of Nations, and former premier of Belgium, is his country's foremost statesman.

Hymans took an active part in the Belgian conduct of the war and was particularly active in placing Belgium's plea for help after the German invasion before the world.

He was chosen as the seat of the league, arguing for Brussels. Hymans is 55 and was born in Brussels. He entered public life as a lawyer in 1885.

Thereafter he was—Member of the House of Representatives, Member of the Municipal Council of Brussels, Professor and vice president of Brussels University, Minister to England, Minister of Foreign Affairs.

Now by the popular choice of 41 nations of the world Hymans will preside at their deliberations and conduct their discussions of ways and means to prevent war.

**Four Young Men Arrested for Robbing Mail Train of \$3,500,000.**

Omaha, Neb.—The Burlington railway mail robbery in Council Bluffs Saturday, probably the largest of its kind in history, in which \$3,500,000 was stolen, was planned and executed by a band of boys, scarcely out of their teens.

Four of the boys have been arrested, three of whom are said to have confessed, and over \$1,000,000 of the plunder has been recovered. The boys under arrest are Merle Phillips, 20, Orville Phillips, 17, Fred E. Poffenberger, 19 and a boy named Roberts. All four are residents of Council Bluffs and were railroad employees.

Orville Phillips surrendered last night declaring his brother, Merle, who was arrested Saturday, had nothing to do with the crime.

Merle confessed, Orville is reported to have said, in order to shield him. Officials believe both are implicated.

The securities which were recovered were found in a lake near Council Bluffs. Police are today dragging the lake in an effort to recover the remainder of the loot.

## DISMISS ANOTHER CADET FOR HAZING

Secretary Daniels Continues Anti-Hazing War at Naval Academy.

Washington.—With the dismissal of a second midshipman from Annapolis naval academy, Secretary Daniels today declared his intention of continuing the war against hazing until the practice is thoroughly stamped out.

The dismissal of the second student was announced following a conference between Daniels and Admiral Scates, superintendent of the academy. Daniels would not say whether others are to be dismissed soon but it is known that the actions of many men are under investigation and that Daniels and Scates have determined to adhere to their policy of dismissals as soon as two acts of hazing are established.

Whether congress will conduct an investigation of the hazing is uncertain. If the matter comes up, it will probably be in connection with the naval appropriation bill rather than by formal investigation, it is believed here.

## HARDING SURE AMERICA WILL FINISH ON TOP

President-Elect Warns Southerners That Discouragements Are Ahead.

ALL MUST PULL TOGETHER

Sectional Feeling Needs to Be Eliminated to Insure Prosperity.

(By Raymond Clapper)  
New Orleans, La.—Though reverses and discouragements may lie ahead, America will face them courageously and will win out, President-elect Warren G. Harding said, discussing the economic situation before the chamber of commerce here today.

He warned that new burdens may have to be borne, extravagances renounced and the old lessons of thrift learned anew.

"With one hundred per cent production and minimized waste," he continued, "we may make the reconstruction and establish sure footing."

"There is no reason for pessimism or despair," he said.

The senator sounded a note of confidence in America's future although warning of the flood and ebb of good fortune.

Ascribing much of the present situation to the war's aftermath, Senator Harding said that inevitably there will be readjustment.

"There are sure to be reverses, there will be endless discouragements, but a confident America will face them all with good courage," he said.

"And we will win. We may slow up a bit now and then, we may have to head back to new burdens, surely we are going to be called on nationally, collectively and individually, to renounce extravagances and learn anew the lessons of thrift and providence. It will add to our power and emphasis once more."

Speaking here at the gateway of Latin-America, he took occasion to urge friendly relations with all nations of the western hemisphere.

"Somehow I feel that the western hemisphere is our special field of influence and trade," Harding said.

**Make Trade Relations**  
"Our trade routes by sea ought to be as dependable as our rail routes at home, and there ought to be significant and reassuring comity and concord among Americans, south, central and north. Bind our friendship with the ties of trade and we shall make it indissoluble."

Harding also addressed an overflow meeting and later boarded the United Fruit steamer Panama bound for his Panama cruise.

"I believe the American people have come to realize that we must face momentous problems—world problems—but more particularly our own problems—and must face them with resolution and courage, and practical wisdom and political determination," he said.

**Dignity of Labor**  
"There must be some stability and dependability, we must put aside the delirium of war and continue to build on solid foundations. We cannot escape all the consequences of war or the unsettled conditions of its aftermath."

"The big thing for all America to realize now and always is the dignity of productive labor. No matter how humble, the producers are the makers of the essentials of civilization."

"There are certain fundamentals which are everlasting. Neither our own nor the world's salvation is to be worked out through any patent nostrum, through any miracle of statesmanship, through any government panacea. Government is but the agency to administer the collective, or organized public service. The greater task is that of the American people themselves. It is for them, under government leadership, to meet the great test."

"Ours are millions of broad acres, eager to respond to man's cultivating touch; we have an empire in millions more which await reclamation; we haven't half revealed our mines nor measured our water power. We are unmatched in genius and unexcelled in industry."

"Our great assurance at home lies in a virile, intelligent, resolute people, in a land unravaged by war, at enmity with no people, envying none, coveting nothing, seeking no territory, striving to no glories which do not come to a righteous nation."

"This republic cannot, will not, fail, if each of us but does his part. If we but work and use thriftily and seek that understanding which reveals mutual equality of interest, no difficulties can long abide. We can't hope for war activities and pre-war costs."

"There has been a wild contemplation of earnings—whether in wages or dividends—in terms of dollars rather than in terms of purchasing power. We must be more concerned with the substance of reward in activity than of its coin measurements."

**MILWAUKEE VISITOR**

**SLUGGED BY BANDITS**

Milwaukee.—William David, of Grand Rapids, Mich., was found brutally slugged and robbed at the Market street entrance of the city hall here late last night. Davis is suffering from a possible fractured jaw and numerous bruises and contusions to his head and face.

## WILL AID WORKING WOMEN AND MINORS

JEANNETTE RANKIN

New York.—Miss Jeanette Rankin of Montana, first woman to sit in the United States Congress, has been appointed field secretary of the National Consumer's League. She will devote herself to promoting legislation for the protection of wage-earning women and minors.

## MILLION VOTES FOR NEW PARTY

Farmer-Labor Party Poll More Votes Than Socialists, Is Claim.

Chicago.—The farmer-labor party polled more than a million votes for its presidential ticket, according to tabulation completed today, announced by Frank J. Esper, secretary of the national committee.

"The farmer-labor party is now the third party, having polled a larger vote than the socialists," said Esper. "Our ticket was placed before the voters in only 19 states owing to technicalities and local conditions. Had the farmer-labor ticket been placed on the ballot in every state more than 2,000,000 votes would have been cast."

"We are elated with the results of the election. It means the actual results gave us very few offices, we believe we have laid the groundwork for a successful party."

Esper said the only offices gained were two representatives and one senator in the Washington state legislature.

"We also polled more votes for our presidential candidate in Washington than the democrats did for Governor Coghlan," said Esper.

Judges and clerks at polling booths in Washington will be republicans and farmer-laborites at the next election. The democrats, he said, by running third, lost the right to have members of their party officiate at the polling booths.

The heaviest vote for the third party in any city was polled in Detroit. There Harley P. Christensen, the farmer-labor candidate, received 65,000 votes. The state of Missouri, Esper said, cast 65,000 votes for Christensen.

No complete figures have been received at national socialist headquarters. Otto Brunstetter, secretary of the party, declared the vote will run "around a million."

"This," he said, "is a high water mark."

## \$400,000 LOOT IN NEW YORK ROBBERY

Former Actress Tells Police She Is Robbed of \$300,000 Necklace.

By United Press Leased Wire  
New York.—Police and private detectives today were puzzled by the reported \$400,000 jewelry robbery at the home of Mrs. Charlotte King Palmer, former actress, in her home just off Fifth avenue.

The story told to the police was as follows: Mrs. Palmer attended a dinner party in Monmouth, N. J., Monday evening with Mrs. Sidney Drew, film actress. About 9 o'clock the maid and butler, the only servants in Mrs. Palmer's house, were seized and bound by the robbers. When Mrs. Palmer returned shortly after midnight she was attacked by three men. They bound and gagged her. They took a \$300,000 pearl necklace and some sable furs together with other jewelry and furs. Shortly after daybreak the butler managed to free himself.

He then released Mrs. Palmer and the maid, after which the police were called.

**THREE BLACKS, ARRESTED FOR MURDER, SHOT BY MOB**

By United Press Leased Wire  
Douglas, Ga.—Three negroes, two men and a woman, implicated in the killing yesterday of Pearly Harper, a prominent young planter, were lined up by a mob and shot to death today.

More than a hundred and fifty men overpowered Sheriff Tanner and his two deputies as they sought to take the negroes to Fitzgerald, Georgia, for safe keeping.

## PRICE OF SOFT COAL DROPS AS MINES SPEED UP

Production This Year May Reach Record Established in 1918.

MORE CARS ARE AVAILABLE

Operators Avert Danger of Soft Coal Shortage Has Been Averted.

By United Press Leased Wire  
Washington.—The bituminous coal supply is outstripping the demand, production promises to reach new high records and prices continue dropping, coal men and government officials agreed today.

While a less optimistic view is taken of the anthracite situation, the belief is expressed here that it also will recover from the effects of the recent outlaw strike and right itself by the first of the year.

Officials of the National Coal association of operators today said the supply of bituminous coal is steadily improving and production for the present week may set a new record. Prices at the mines, they say, continue to drop and there is no shortage except sporadic cases in scattered localities.

At the American Wholesale Coal association it was stated the bituminous coal situation is satisfactory in every way and prices continue to decline.

**Year Record Year**  
The United States geological survey today cited figures to show coal production so far this year is rapidly approaching the production at this time in 1918, a record year, when in face of heavy demand there was a surplus carried over.

The production this year has been about 464,331,000 tons. At this time last year, it was 405,344,000 tons and in 1918, 505,021,000 tons.

It present rates of production are kept up, the production by the end of the 1918 figure, it is believed here. Throughout October and the latter part of September production ran more than 2,000,000 tons a week for successive weeks. It fell below this mark only last week due to the armistice day holiday.

**No Famine in West**  
Chicago.—There is no prospect of a coal famine in the middle west this winter, according to Fred C. Honold, one of the big mine owners.

Honold declared there has been an tremendous increase of cars and that coal is now moving freely.

The mild weather has also helped to avert any famine," Honold said. "The fact that we have had little cold weather has increased the stock of coal on hand."

**Pittsburg, Pa.—Pennsylvania** bituminous coal mines continue to produce full at a rate far in excess of the demand and any fears that may have been held for a coal shortage should be allayed, operators said here today.

Officials pointed out the production now is much greater than last season. Industries in western Pennsylvania were piling up reserve stocks from their own mines today before ice blocks river transportation and cuts off coal supply from that source.

Car supply on some railroads reached 100 per cent.

## SAVE MILLIONS BY IMPROVING WATER

Shippers Urge Expenditure to Make Mississippi More Navigable.

By United Press Leased Wire  
Minneapolis.—The Mississippi river can be the greatest inland waterway in the world and the north-west could save \$40,000,000 annually on its coal bill alone, according to Edward F. Goltra, St. Louis, successful barge line operator.

He assured businessmen at the first conference of the Upper Mississippi River Waterway association that they could save \$2.75 per ton on coal from Illinois fields when regular barge traffic is established.

A permanent organization was formed with W. P. Trickett, head of the Minneapolis Traffic association, as president. It was agreed to spend \$12,000 annually on the campaign for improvement of the upper river.

Goltra told conferees the poorest stretch in the river is around Rock Island, Ill., where the river widens out. He declared it would be a paying investment to spend \$500,000 a mile on the river to make it a deep waterway and that \$40 miles needed improvement.

Congressman J. J. Esch of Wisconsin, reviewed the history of water and rail transportation and urged that the program be carried out.

**Replevin Action**  
Harvey Hallet started a replevin action against E. A. Perkins in municipal court Wednesday to recover ten tons of hay which he claimed he purchased at auction. The defendant claimed that the terms of the auction were not complied with and after hearing the testimony the court dismissed the action.

## Lunch Remnants Provide Clew To Mother of Child Abandoned At Convent

DOG DROPS 3,000 FEET FROM AIRSHIP?

By United Press Leased Wire  
San Antonio, Texas.—"Bing," bull terrier, address Kiley field, Texas, turned into a sky terrier today.

Bing made a drop of about 3,000 feet from the upper wing of an airplane, coming down via a standard parachute, with a special harness, made to fit his body. Bing was "blown off" the plane. This process consists of releasing the parachute, allowing the wind to whip the parachute from the plane.

Two flying sergeants were also blown off the upper wing of the plane following Bing's drop. It took the 20 pound dog nearly ten minutes to complete the trip.

## BRITISH LABOR WILL HELP IRISH

Laborites Appoint Committee to Investigate "Black and Tan" Reprisals.

(By Webb Miller)  
By United Press Leased Wire  
London.—The labor party today began bestirring itself in behalf of Ireland.

A manifesto was issued condemning the British administration of Irish affairs. The manifesto received close attention in high government quarters. It was remembered that the labor party, by threatening a general strike, greatly influenced the government's course during the British Bolshevik "war scare" when the Red troops were invading Poland and brought about a conciliatory attitude in place of a belligerent one.

The labor party in this manifesto advocated withdrawal of the British forces from Ireland. It urged self determination for that country even if a republic should be formed there. A committee was appointed to visit Ireland and conduct "a great campaign of public enlightenment."

No special significance was attached to the fact that the labor party made this move at the same time as an unofficial committee of Americans, sitting in Washington, commenced an investigation of the Irish situation.

Arthur Henderson, labor leader, was appointed chairman of a commission to make an investigation into the origin and nature of the reprisals. This commission will go to Ireland, Nov. 24. The laborites received unexpected assistance from the church of England. Seventeen bishops subscribed to a resolution urging cessation of "military terror" in Ireland.

## SEVEN YEARS IN 'PEN' FOR YOUNG BANDITS

Youthful Robbers Are Caught by Sheriff and Aides After Fight.

By United Press Leased Wire  
Chippewa Falls, Wis.—Fred Coleman and Frank Roberts, 20 year old youths, pleaded guilty to charges of robbery today and were sentenced to seven years a hard labor in the Green Bay reformatory.

The pair were captured by Sheriff H. J. Kilpatrick and two men after a thrilling fight on a lonely north woods lane seven miles north of New Auburn yesterday.

Deputy Charles Baxton and Richard Slayton, farmer, went with Kilpatrick to the cache the pair had established in a cottage at Axe Handle lake. The boys had fled northward toward Ladysmith and the sheriff followed. As the day wore on they overtook the pair near them, then stopped in a side lane and waited.

Both boys drew guns when accosted. Baxton and Slayton seized Roberts. Coleman levelled his gun at Kilpatrick but the sheriff knocked it from his hand with his own weapon. In the scuffle that followed, Baxton suffered a broken hand. The others were scratched, cut and bruised.

The boys confessed to a number of robberies in towns scattered all over northern Wisconsin. They were considered desperate.

## PREDICTS SHORTAGE OF CATTLE IN TEXAS

By United Press Leased Wire  
San Antonio, Texas.—A shortage of cattle next year was forecast today by Colonel Ide I. Pryor, San Antonio, former president of the American National Livestock association. With more than 400,000 cattle shipped from south Texas to market from March to July, this year, and only about 100,000 cattle shipped in, a drastic shortage is threatening, according to Pryor.

Draughts in Texas also caused a decrease in the number of cattle in that section, he said.

Stock men are expected to recover from the price depressions without serious failures, Pryor declared.

## IRISH PROBERS HEAR STORY OF TERROR REIGN

Young Irish Councilman Tells How His Town Was Attacked by British.

WAS DEPORTED TO ENGLAND

American Commission Told That Deportations Followed Election.

(By L. C. Martin)  
By United Press Leased Wire  
Washington.—A picture of a peaceful Irish market town turned into a place of terror and death by British soldiers and constabulary was painted in graphic sentences today for the American commission investigating conditions in Ireland by Dennis Morgan, chairman of the town council of Thurles.

Morgan was the first witness. He came from Ireland to testify before the commission, which formed at the suggestion of Oswald Garrison Villard, is holding hearings here with the avowed purpose of getting at the truth about Ireland.

The commission is entirely unofficial and not connected in any way with the government. It is a project of the Nation, a weekly magazine published in New York.

Frederick C. Howe, former immigration commissioner at Ellis Island, presided at today's session.

Morgan, a young teacher of English and Gaelic in the diocesan college and secondary school in Thurles, described his home city as in the middle of the heart of Tipperary, in Munster province. It is a market center of 5,000 inhabitants, he said.

Morgan declared there were no murders, burglary or other major crimes committed in the town for many years and the only offenses with which the courts had to deal were "straying asses in the road, or some citizen who had imbibed too freely."

Trouble broke out in Thurles, Morgan said, on January 20, five days after he had been elected as a labor member of the town council.

**Town Shot Up**  
On the night of January 20, he said, the town was shot up by the Royal Irish constabulary in revenge for the shooting of one of their number. Morgan described the terror of his family as the courts all night in a stone floor to escape the bullets which crashed through the windows of the house. Next morning, Morgan said, he found that the houses of all members of the town council who favored Irish independence had been riddled with bullets.

On January 30, Morgan was arrested in his home by the Royal Irish constabulary who told him he said, there was no charge against him but he was taken "on government orders."

With four other Sinn Feiners from Thurles and fifty from other towns he was deported to Wormwood Scrubs prison in London. On the trip, he said, the men were handcuffed in pairs and were confined in a small compartment aboard ship.

After having been in prison until late in April, Morgan said, he and 200 other Irish prisoners demanded trial.

**Goes on Hunger Strike**  
When it was refused they all went on a hunger strike. Finally some of the hunger strikers became so weak they were taken to a hospital where Morgan got back to Ireland in June, he said.

The deportations, he declared, were general over Ireland, and followed sweeping victories in local district and county elections for Irish republican candidates. More than 600 were deported in a few days.

Threatening letters were sent to Morgan and other members of the town council, the witness said.

"I got a letter telling me that I would depart this life unless I left Thurles within 24 hours," Morgan said.

"Another member of the council named McCarthy demanded an investigation of the shootings up of the town. McCarthy told me the information he needed if he would go up a certain street that night. He didn't go. That night a knock came to the door. McCarthy's brother went to the door and was shot dead. His sister ran out to call the priest and she was fired at. "The coroner's inquest returned a verdict that McCarthy was killed by persons in the uniform of the Irish constabulary."

**COAL MINES SIZED BY MEXICAN STRIKERS**

By United Press Leased Wire  
Eagle Pass, Texas.—Strikers in the coal regions of the state of Coahuila, Mexico, have taken over the coal mines, according to reports received here today.

The situation was said to be serious with some rioting and disorders taking place.

Americans in the region were said to have been guaranteed protection by the central government.

Miners in the Coahuila region have been on strike for several weeks. A few of the miners are reported to have been

# 3 PER CENT DROP IN RETAIL PRICES

Government Reports Show  
Price Drops Slow to  
Reach Consumer.

Washington.—Retail food prices decreased three per cent between Sept. 15 and Oct. 15, the department of labor announced today.

Wholesale food prices during October dropped 8 1/2 per cent and the prices received by farmers dropped by a still greater per cent, according to figures given out by the labor and agricultural departments. This showed that the full effect of price drops is slow in reaching the consumer.

Prices declined for thirty out of forty-three food articles listed. Sugar decreased 24 per cent, potatoes 15 per cent, onions 11 per cent, rice nine per cent, steak and meats four per cent and miscellaneous from three to one per cent.

Prices increased were eggs, 14 per cent, lard five per cent, bacon, butter and other articles increased less than one-half of one per cent.

The greatest decrease in living costs was shown at Omaha and St. Paul which recorded drops of six per cent. Decreases of five per cent was shown at Portland, Oregon; Seattle, Milwaukee and Minneapolis.

Decreases of four per cent were shown at Chicago, Cincinnati, Denver, Detroit, Indianapolis, Memphis, Pittsburgh, Portland, Maine; St. Louis, San Francisco and Springfield, Ill.

**Fix Scout Budget**  
The budget for Appleton Council of the Boy Scouts of America for the next three years is to be made up at a meeting at the Y. M. C. A. at 4 o'clock Thursday afternoon. Those in charge of it are T. A. Gallagher, H. W. Tuttrill, Gus Keller and W. O. Thiele.

# DEATHS

**LOUIS DE GUERE**  
Louis DeGuere, 58 years old, a resident of Appleton since 1872, died at eight o'clock Thursday morning at his home, 821 Jackson street. The deceased was born in Montreal, Can. He moved here with his wife from Montevideo in 1872. The couple was married 62 years ago.  
Mr. DeGuere is survived by his widow and nine children. The children are: L. A. DeGuere of Wisconsin Rapids; Louis of Alabama; Philip of Green Oakman, Iowa; Alex. of Milwaukee; George of Ashland; Mrs. J. C. Miller of Buckley, Minn.; and Miss Alma of Appleton.  
Arrangements for the funeral have not been completed.

**MARGARET KUENZL**  
Miss Margaret Kuenzl died at 5:30 o'clock Thursday morning at her home 1135 Eighth street, after an illness resulting from an attack of the flu last winter. She is survived by her parents, Mr. and Mrs. Andrew Kuegel, three brothers, John at home, Edward of Fond du Lac and Joseph of Texas. Funeral arrangements will not be made until after the arrival of Joseph Kuenzl from Texas.

# Births

A son was born to Mr. and Mrs. Frank Peotter Second avenue Tuesday.

**Go to Conference**  
Appleton is to have a big delegation this year at the Older Days' Conference at Madison Nov. 26, 27 and 28. Because of the great number to be taken care of, Paul H. Wright, boys secretary of the Y. M. C. A., has asked that all boys turn in their registration cards by Friday night at the latest.

WHAT'S YOUR HUSBAND DOING?

# First National Bank In Existence A Half Century

Herman Erb is Only One of the  
Original Officers Still  
Surviving.

The First National Bank rounded out its 50th year Monday. There was no special celebration of the occasion, but a backward glance brings to light some of the interesting financial and industrial history of Appleton.

Only one officer and one employee of the original force are still living. Herman Erb, who started as cashier and is now chairman of the board of directors, was active in the bank up to a few months ago, when he left for California for an extended visit. Thomas J. Franklin, who started as messenger boy November 14, 1870, is still a member of the banking force.

The institution was founded by a board of directors consisting of A. L. Smith, E. C. Goff, Welcome Hyde, J. T. Reeve, W. S. Warner, Andrew J. Smith, G. W. Spaulding and H. A. Jones. A. L. Smith was president, E. C. Goff, vice-president and Herman Erb, cashier.

**Started With \$50,000**

The capital stock at organization was \$50,000. It was increased to \$75,000 on January 24, 1871 and to \$150,000 on the latter date. Several new stockholders were added, including F. C. Shattuck, C. B. Clark, H. J. Rogers, John VanNortwick, H. Smith, J. H. Marston and C. A. Beveridge. All of these have died, Mr. Marston surviving all the others. His death occurred only a short time ago. The bank was reorganized in 1890, the capital stock increased to \$300,000 and many new stockholders admitted.

Perhaps the most significant event in the bank's history was the merger of the Commercial National bank with the First National, October 1, 1919. The former had a capitalization of \$150,000 and the latter \$300,000. The First National raised its capital stock to \$500,000, making the capital of the new organization half a million dollars. The First Trust company was also organized at that time with a capital of \$100,000 and a surplus of \$10,000.  
Three former officers of the Com-

mmercial National bank were taken into the First National organization when the consolidation took place. They were C. S. Dickinson, former president, H. G. Freeman and H. W. Tuttrill, former cashier. Mr. Freeman is now vice-chairman of the board of directors, Mr. Dickinson is vice-president of the bank and president of the First Trust company. Mr. Tuttrill is assistant cashier and secretary of the trust company.

**Powell Is President**  
R. S. Powell joined the bank's organization as active vice-president before the merger was effected. He was later made president. The present organization includes besides the president, C. S. Dickinson and F. J. Sennelbrenner, vice-presidents, L. O. Wissman, cashier; A. O. Hecht, assistant cashier; H. W. Tuttrill, assistant cashier; Herman Erb, chairman of the board of directors; H. G. Freeman, vice-chairman of the board; Mr. Wissman entered the bank's service 31 years ago as messenger. Mr. Hecht has been an employee since 1889.

The First National bank has enjoyed a phenomenal growth since its founding. The combined assets of the two banks October 1, 1919 was \$5,555,019.30. A recent statement showed the combined assets of the bank and trust company to be \$7,054,810.15, or a net increase for the year of \$1,500,790.85. The deposits now total close to the five million mark.

The handsome structure occupied by the bank was built about six years ago. Its former location was on the opposite corner, where the Wisconsin and Northern railroad offices are located. Thirty people are employed, including the officers. This is six more than a year ago. There is only one bank in the Fox River valley larger than the First National, the Old Commercial National bank, Oshkosh, which went into the lead when a recent consolidation of two large banks took place.  
A farm department in charge of Paul O. Nyhus, farm agent, is the most recent addition to its service features. Its influence is already being felt through its promotion of modern farming and breeding methods.

# ANOTHER FRAT IS FORMED AT COLLEGE

Fifty Young Men and Women  
Organize to Promote  
School Spirit.

A new honorary fraternity has been organized at Lawrence College under the name of Tau Tau Kappa. The purpose of the new organization is to promote school spirit at Lawrence. This is to be accomplished in the following ways: by cooperating with the student senate in promoting the honor system; by cooperating with the chapel committee of the student senate to put on a snappy, peppy student chapel; by cooperating with the faculty in an endeavor to gain better grades; by cooperating with the Loyalty Legion in an attempt to establish campus customs; by cooperating with the Y. M. C. A. and the Y. W. C. A. in an effort to make these organizations live organizations on the campus; by cooperating with the townspeople in making the spirit between the Appleton people and the Lawrence students better; by cooperating with all the fraternities and sororities; by cooperating with the non-fraternity people, a better relation is here established between the fraternity and the non-fraternity people; by cooperating with the Y. M. C. A. employment agency, a definite employment bureau for Lawrence students will be formed.

**Has 50 Members**  
The fraternity is composed of fifty members chosen from every fraternity and sorority on the campus, from the non-sorority and the non-fraternity groups. There are representatives from every class and from every organization on the campus. There are also six faculty members.

The membership is as follows: Seniors, Earl Watson, Dorothy Pierce, Jack Vincent, Appleton; Chester Hart, Wausau; Florence Clark, Keneshaw; Dorothy Watson, Manitowish; Donald Dyer, Lancaster.  
Juniors, Lawrence Singer, Hudson; Victor Werner, Shawano; Genevieve McGowan, Milton; Helen McRae, Rhinelander; Helmer Hagen, Chippewa Falls; Letha Damburch, Margaret Lucie, Fenwick Pugh, Appleton; Gertrude Fisher, Hudson; Carolyn Jamison, Neenah; Harry Clark, Oshkosh; Vera Chamberlain, Mauston; Winifred Harvey, Manitowish.

Sophomores, Margaret Henderson, Norway, Mich.; Harry Colvin, Arthur Wheeler, Alan Hackworth, Appleton; Edwin Johnson, Milwaukee; Gwendolyn Jacobs, Janesville; Esther Feldhaber, Wausau; Harold Waarwick, Mauston; Mathilde Harriman, Appleton; Alice Pusoy, Marshfield, Ill.; Edmund Frank, Kaukauna; John Wilderling, Hatley, Ont.; Or. Negaane, Mich.; Mary Wright, Andigo.

Freshmen (pledges) Margaret O'Leary, Myra Buchanan, Eleanor McCallan, William Wright, Appleton; George O'Brien, John Burke, Russell Waffle, Elcha Tobie, Alan Rice, Norma Haberman, Irene Morris, Richard Evans, William Morrison, Mark Peacock, Milton Nelson, Racine; Bunice Slattergren.

Faculty members of the fraternity are D. O. Kinsman, A. A. Trever, Miss Gertrude Graves, Miss Frances Foster, W. W. McPheters and John B. McHarg.  
The fraternity was organized by Jack Vincent, an Appleton man and a senior at Lawrence College. The idea is original and is working out very well in promoting school spirit.

WHAT'S YOUR HUSBAND DOING?

# MISS SCHULTZ IS APPOINTED NURSE FOR THE COUNTY

Present Red Cross Nurse Will  
Be Continued in Service  
at \$1,800 Salary.

Miss Bertha Schultz, Red Cross nurse, was selected as the new county nurse by a unanimous vote at the session of the county board Thursday morning. Her salary was fixed at \$1,800 a year and the automobile she has been using for Red Cross work was purchased for \$1,200. She was also expenses, the garage and incidental expenses. The total budget appropriated being \$3,700. She will take up her new duties Dec. 1, 1920.

The report of the county, state road and bridge committee in regard to an appropriation of \$30,000 and another for \$16,333.16 to meet federal, state and county aid appropriations of \$80,000 and \$50,000 respectively was laid over until tomorrow.

A resolution favoring the building of a sidewalk on the west side of Kimberly bridge, the county and village to share equally in the expense, was referred to the county, state road and bridge committee.

A communication from the trustees and superintendent of the county insane asylum calling attention to the need of a new \$12,000 laundry building was viewed favorably especially after certain members who visited the asylum Wednesday made known the dilapidated condition in which they found the present building. A resolution recommending an appropriation will be introduced before the end of the week.

Action on a resolution recommending the appointment of a county agricultural agent which is backed by a petition bearing 800 signatures was laid over until Friday. A resolution of condolence in memory of James C. Nelson, assistant highway commissioner, and a former member of the county board, was adopted by a rising vote.

A communication from Jacob J. Demerath who operates a confectionery store at the north end of Kimberly bridge, which charged N. C. Nooyan with unfair competition, was

## STATE DROPS RISK RATES 10 PER CENT

Compensation Insurance for Workmen Is Reduced by Safety Movement.

Premiums on compensation insurance have hit the price boggy, not because of the law of supply and demand or the fear of a buying slump, but because policyholders are learn-

ing to prevent accidents by making it impossible for them to happen. Notice of a decrease in rates averaging 10 per cent has been received by George H. Beckley, local insurance agent. The reduction was ordered by the state compensation insurance board at Madison to take effect December 1. Policies already in force are included in the change, which means a refund to all firms which paid the old rate. The change applies to all companies doing business in Wisconsin.

Adjustment of rates is based on experience data collected by the board, according to Mr. Beckley. The board has been compiling reports on factory and accident conditions since 1911 and has done a large amount of work

## ANOTHER SWITCH CREW ON ASHLAND DIVISION

The Ashland division of the Northwestern road has just put on a third switching crew to operate between Appleton Junction, Appleton, Kimberly, Combined Locks and Kaukauna to relieve the present crews from working over time. The additional crew is in charge of Conductor Tillman. Instead of diminishing, the amount of freight handled by the Ashland division has greatly increased during the last two weeks due to heavy shipments of pulpwood.

along the line of teaching employers the value of safety and safety devices. The result has been a material reduction in the risk involved in Wisconsin plants, with a corresponding reduction in the cost of compensation insurance.

The safety campaign and sums invested in protection of employees against accidents by Badger plants is being returned to them in dollars and cents by this cheaper insurance, which is carried in amounts running into large figures by some concerns. Employees are also beginning to co-operate by showing a willingness to use the safety devices placed on their machines. They appreciate that the protection is in their own interests. Mr. Beckley states, and that compensation insurance safeguards them against financial losses.

The Indians, at the time of the discovery of America, were considerably advanced in surgery and medicine

## Red Cross Aid Restorse Use Of Withered Limb To Hattie

This Little Girl Is One of Forty Which Red Cross Is Helping.

The happy smile on the face of the little girl in the picture means more than any photograph could convey. It means that Hattie, a 10 year old Miss living in the northern part of the county, will go through life strong and healthy, able to go about as other girls do.

Hattie was a cripple from birth. Infantile paralysis had caused her left leg to be drawn up in a bent knee position, with her foot poised half way to her knee. She had to toddle about on crutches in this way ever since she was able to walk with the sound foot.

The little cripple looked upon an entire life of helplessness as a matter of course. She never dreamed that she might some day be cured and be able to romp about like her girl companions did. Being one of eight children, with a widowed mother was striving to support, she knew there was little chance of her case ever coming to the attention of anybody that might help her.

Found by Nurse The Red Cross placed Miss Bertha Schultz in the field last spring as county nurse, and it was while visiting at one of the rural schools that Miss Schultz learned about Hattie. The little girl was absent from school that day, but Miss Schultz drove to her home to inquire about her. She arranged with the mother to take the girl to a physician to be examined and learned that there was a possible chance that a specialist might straighten the bent limb.

The mother was without the means to do this, as her husband died three years ago. But with her permission, Miss Schultz took Hattie to a state orthopedic surgeon at Milwaukee where it was learned that a cure was possible. Hattie entered a hospital in June and remained there 18 weeks while the slow process of straightening the limb was carried out. She returned home about three weeks ago, able to use both legs and to walk without crutches.

In Hospital 18 Weeks The child's leg was placed in a cast and a rope was fastened to her foot with weights suspended at the other end and hung over the front of the bed. She submitted to this treatment practically all the time she was in the hospital. The surgeon required her to wear a brace when she left the hospital, in order to support the limb until it became stronger. She will wear the brace for about a year and then can do without it entirely. Hattie occupied her time at the hospital by learning basket weaving, at which she has become quite skillful.

"It hurt me some to have my leg in a cast and have a rope tied to it," said Hattie, "but I didn't mind it so much. My leg doesn't hurt me at all when I walk around now and the doctor says I won't even have to wear the brace a year from now."

"I was glad I didn't have to be a cripple and go around on crutches all the time, but I never thought I would have a chance to be cured. What if Miss Schultz had never found me?"

Cost About \$1000 It cost about \$1,000 to restore Hattie to health. The Junior Red Cross and the Outagamie chapter paid it all. There are 40 cripples in the county which the Red Cross is trying to help. Eight cases have been cured completely and 16 are under treatment now. Others are to be helped as soon as conditions and finances will permit.

Not only was Hattie made whole and happy, but she was saved from becoming a public charge later in life. The state has started a movement to conserve those whose means of livelihood might be impaired, but the Red Cross has become the advance guard and is accomplishing commendable results.

Cases like Hattie's, cases of sickness or helplessness are cared for by means of 50 per cent of the Red Cross roll call money that remains in the county treasury. A full and free

Get a can today from your hardware or grocery dealer.

## RECRUITING OFFICER TO ARRIVE HERE THURSDAY

A recruiting officer of the United States army will be in Appleton from November 18 to 21, according to notice from the recruiting station at Green Bay. He will confer with all men considering enlistment in the army for one or three years.

Special inducements include vocational training, choice of vocation, choice of branch of service and opportunity to qualify for West Point. Those who have not served in the regular army before April 2, 1917 or since February 28, 1919, may enlist before or after these dates must enlist for three years.

Those re-enlisting for three years who have served in the army before or after the above dates will be paid a bonus of \$30 as soon as enlisted. Men enlisting for the first time for three years will receive the bonus after they are honorably discharged.

The army is said to have some of the most complete shops in the world for those who want to learn trades. Prominent instructors of the country have charge of the educational work, which covers a variety of subjects. Opportunity is also given for travel if a man so elects, especially to the Philippines and Panama. A

limited number of men will be accepted for service in Germany.

Because salmon are taken largely during the spawning season, it is believed they will soon be extinct unless artificial propagation is resorted to.

## The Housewives Burden

When a woman is almost distracted from overwork, her home is in disorder, crying children, and on top of all is suffering from backache, bearing down pains, or some other form of feminine ills, then she should remember that hundreds of women in just her condition have been restored to health and regained their youthful strength by taking Lydia E. Pinkham's Vegetable Compound and not rest until she has given it a fair trial.

### Proof that it Restored the Health of These Two Women

Cairo, Ill.—"Some time ago I got so had with female trouble that I thought I would have to be operated on. I had a bad displacement. My right side would pain me and I was so nervous I could not hold a glass of water. Many times I would have to stop my work and sit down or I would fall on the floor in a faint. I consulted several doctors and every one told me the same but I kept fighting to keep from having the operation. I had read so many times of Lydia E. Pinkham's Vegetable Compound and it helped my sister so I began taking it. I have never felt better than I have since then and I keep house and am able to do all my work. The Vegetable Compound is certainly one grand medicine."—Mrs. J. R. MATTHEWS, 3311 Sycamore Street, Cairo, Ill.

Chattanooga, Tenn.—"I used Lydia E. Pinkham's Vegetable Compound before my baby came when I could no longer keep up. It strengthened my back and relieved me of the ill effect which so often develops at such times. That was my first experience with the Vegetable Compound. Years afterwards I took it during the Change of Life and got along so well I scarcely ever had to lie down during the day and seldom had dizzy, fainting spells. I am now well and strong, can do all my housework with perfect ease and it is a comfort to me to be able to say to other suffering women 'take Lydia E. Pinkham's medicine and be strong.' I will be glad to have you use my name if it will be the means of helping any one."—Mrs. R. A. FARMER, 606 Orchard Knob Ave., Chattanooga, Tenn.

## THE SHIPPING SCANDAL

The congressional select committee which has been investigating the operations of the United States shipping board has at last unearthed evidence which indicates colossal mismanagement. Former employees of the board have made charges of corruption against employees and officials of the Shipping Board Emergency Fleet corporation, graft in purchasing supplies for and in repairing government owned ships and the use of political or other improper influence in obtaining contracts for ship construction and the allocation of completed vessels to operating companies.

There appears from the mass of evidence already collected, which shows an almost complete breaking down of any system of accounting, that excessive costs, running perhaps into the billions, have been incurred by the government through inefficiency and what can be viewed in no other light than plain graft. Unscrupulous contractors are alleged to have taken advantage of the government in many ways. Workmanship and materials were slighted, mountainous prices charged, payrolls padded and various devices used to absorb in the quickest manner possible the vast appropriations at the disposal of the United States Shipping Board. It is even charged that in the salvage of shipbuilding plants, uncompleted hulls, material and stores, amounting to millions of dollars, the proceeds netted less than fourteen cents on the dollar, while at the same time the Shipping board at other points was purchasing the same materials in the open market at prices in advance of the original cost prices of the materials sold.

In yesterday's report of the investigation, John J. Gillen, special assistant to John B. Payne when the latter was chairman of the Shipping board, testified before the committee that his investigation disclosed that the Shipping board has no records to show how much money it had taken in during the war and how much it had expended. Of \$400,000,000 taken in on freight charges only \$50,000,000 remains. He added that one shipping firm alone had more than \$25,000,000 of the board's money, and that of 8,000 voyages of shipping board vessels only eight accounts had been audited.

There seems to be little doubt, in view of the evidence already adduced, that in the operations of both the Shipping board and the Emergency Fleet corporation the government has been mulcted out of staggering sums. The business seems to have been conducted as a huge grab bag, in which favored and rapacious contractors dipped their hands to their heart's content. There have been rumors of mismanagement and charges of gross extravagance in both these governmental agencies, but nothing approaching the present disclosures had been charged by the most adverse critics. Beside the shipping mess the celebrated beef scandal of the Spanish-American war seems trivial.

It was inevitable that in the speed with which the nation was forced to arm and prepare for war there should be large wastes and many extravagances, but when it comes to corruption and graft that is another matter. The war seemed to produce profiteers and conspirators who stopped at nothing to enrich themselves by any methods whatsoever, and they included many men and firms of prominence. Those who were in collusion with dishonest or incompetent government officials are guilty of criminal fraud.

Nothing less than a complete exposure of the shipping scandal, which spares no one no matter what their social, business or political position may

be, followed by prosecutions where there has been dishonesty, can satisfy public opinion and the ends of justice. Nothing so shakes the confidence of the people in the federal government and administration as scandals of this kind. It is imperative that they be dealt with unsparingly and that measures be taken which will give the country protection against their future recurrence.

## WONDERFUL CROPS

Agricultural production in general is gratifying, but certain crops are unusual. The yields this year of corn, rice, sweet potatoes, tobacco and pears surpass in size those of any previous year in the country's history, and potatoes, oats, barley, rye and apples closely approach the previous highest records. Corn, of which this country produces 75 per cent of the world's yield, reached the vast total of 3,199,126,000 bushels, 75,000,000 bushels above the highest previous record, three billion bushels having been exceeded only in 1912 and 1917. Iowa produced the largest corn crop, Illinois ranks second, Nebraska third, and then follow, in the order of their production, Missouri, Indiana, Texas, Ohio, Kansas, Minnesota, South Dakota and Kentucky. But, owing to a decline in the price, the money value of the corn crop will not equal that of several earlier ones.

The yield of tobacco is 87,000,000 pounds greater than last year's record-breaking crop. Virginia and the Carolinas all exceeding their last year's production. Rice exceeds by 12,000,000 bushels the previous largest crop in 1917, nearly half of the yield being grown in Louisiana. Alabama was the leading producer of the bumper sweet potato crop. California was first and New York second in the production of pears, the fifth and last of the record-breaking crops. As the six other crops that nearly equal the record include apples, the present high retail price of that indispensable fruit ought to decline enough to gratify the thousands who hold that "an apple a day keeps the doctor away."

## A REFUGE FOR WILD LIFE

What is said to be the most extensive effort in the direction of game preservation ever made has been brought to completion by the signing of deeds and other documents in Louisiana's capital of Baton Rouge. Louisiana now possesses a reservation of 500 square miles with a frontage of 75 miles on the gulf, and has contracted forever to maintain this great area as a safe refuge for all the wild creatures of the woods, the marshes and the air. The special design is to protect the birds particularly the migratory species and those with commercially valuable plumage. A large part of the land included in the reservation is unfit for agricultural purposes, but the deeds provide that in case of the discovery of oil or minerals such resources may be developed, but with the least possible disturbance of the wild life, and that all revenue thus derived by the state will be devoted to further game conservation or to public education.

The originator of this movement was E. A. McIlhenry of Vermillion parish, who set aside 60,000 acres of his own marsh land as a bird asylum. The project was then taken up by M. L. Alexander, head commissioner of the state department of conservation, who campaigned for the preservation of the birds and beasts of the Gulf coast. Outside attention was attracted and both the Russell Sage and the Rockefeller Foundations became interested, the former contributing an island of 78,000 acres and the latter a tract of 85,000 acres on the mainland. Thus the project grew until it was possible to set apart forever the large domain of 500 square miles. The friends of conservation in other states should find inspiration in Louisiana's example.

**HAD AN IDEA—NOW HE'S \$25,000 RICHER**  
Hutchinson, Kan.—J. J. Macle, local hotel manager, has \$25,000 more in his bank account today because he had an idea and used it. He watched his chef poaching eggs and thought there ought to be a better way to do it. So he invented an egg poacher, patented it and sold the patent to a Kansas City concern for \$25,000.

**"WAR'S OVER—NO DRESS EXTREMES NOW"**  
North Adams, Mass.—Now the war is over, Principal H. H. Gable says he is going to let his school boys know why there should be no more "dress extremes." Principally Gable has issued a decree at his high school that no girl with a painted face, bare knees or extraneous dress will be permitted in school. "There's likely, say some, to be some opposition to the order."

A bonus was given to British soldiers ranging from \$24.50 to \$140.84 a month.

## HEALTH TALKS

BY WILLIAM BRADY, M. D.  
Noted Physician and Author.

Dr. Brady will answer all signed letters pertaining to health. Writers' names are never printed. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and a stamped envelope is enclosed. Requests for diagnosis or treatment of individual cases cannot be considered. Address Dr. William Brady, in care of this paper.

### HEATERS AND VENTILATION

A reader asks whether it would be unhealthful to use gas stoves in various rooms for heating purposes (owing to the coal situation) and keep a window down an inch in each such room in lieu of pipe connection with the flue or chimney of the house. It would be very unhealthful to depend on any such uncertain means of ventilation. The window would not be kept open if the weather became very cold.

Any known fuel burning in a room to produce heat must produce carbon dioxide gas. That gas is the same as the burnt air given off from the lungs of man and animals. Within all ordinary limits carbon dioxide gas in the atmosphere of the living room or sleeping room is of no consequence; even what we might call involuntary ventilation, the seepage of air through the various cracks and crevices about doors and windows, serves to keep the proportion of oxygen and carbon dioxide gas about right, provided only the respiration of persons in the room is using up the oxygen and producing carbon dioxide. But when you use a stove burning coal, wood, kerosene, gas or gasoline, ventilation must be freely provided lest harmful effects ensue. An oil lamp burning in a room uses up as much oxygen and produces as much carbon dioxide as six or eight persons would. A heating stove is equivalent to a large crowd of people in the room. Whether any smoke or any odor is produced or not, it is of the utmost hygienic importance that every such heater should have direct pipe connection with the flue or chimney to carry off the carbon dioxide. Carbon dioxide is not poisonous. But it may accumulate in sufficient proportion to crowd out the oxygen. That is how it produces its deleterious effects. Carbon dioxide is odorless. Therefore, it is no criterion of hygienic perfection if the heater without flue connection happens to give off no appreciable odor.

It is difficult to determine whether the impairment of health suffered by so many housewives and others confined through the winter in rooms heated with stoves without stovepipes is due entirely to insufficient oxygen (too much carbon dioxide in the air) or whether it may be in part caused by the escape of carbon monoxide into the room. This latter gas is a powerful poison, accountable for many sudden deaths, as about closed garages, the carbon monoxide gas being given off in the automobile exhaust. Minute quantities of it in an atmosphere may produce strange and bizarre effects, and probably do explain much of the anemia and "liver trouble" which so many women develop after a few months of confinement in rooms without proper ventilation. Carbon monoxide may be given off from any fire, from any kind of fuel, if the drafts do not admit sufficient air.

Sallow skin, headaches, backaches, impaired digestion, melancholy and anemia are familiar effects of mild, frequent or prolonged carbon monoxide poisoning.

### QUESTIONS AND ANSWERS

#### The Childless Marriage

Can you tell me why so many women married for years remain childless? (P. M. T.)

ANSWER—Various defects of development and of physical education, various disease conditions of the wife, in at least half of all such cases the sterility is the husband's.

#### Sugar on the Cereal

Some physicians allow only one teaspoonful of sugar on the oatmeal taken at breakfast by a child. Others allow all the child desires—which, in our household, is about four heaping teaspoonfuls. Please give your advice about this. (G. C.)

ANSWER—I'd allow the average healthy child all the sugar he likes on his oatmeal. In the case of the child with digestive difficulty, anemia, finical appetite, an excess of sugars and starches in the diet is often an important factor, and in that case the amount of sugar allowed should be restricted, in order to preserve or encourage an appetite for other kinds of food. Children over five years of age should be encouraged to satisfy the natural craving for sugar with a liberal amount of fruit.

## TWENTY-FIVE YEARS AGO

Thursday, Nov. 21, 1895

The Rev. A. A. Brown returned from a several days' visit to Green Day.

The next attraction at the opera house was to be "Human Beasts" on Nov. 22.

Henry Hackett paid a fine and costs of \$5.75 for riding his bicycle on the sidewalk.

J. W. Hammond left for Chicago to be present at the marriage of his son, Walter Hammond.

John McNaughton was confined to his home by illness.

E. P. Briggs and family, late of Winnebago, were settled in their new home on Catherine street.

Mrs. Fred Heineman entertained several ladies the day previous in honor of her birthday anniversary.

Charles Beveridge of Nebraska City, Neb., was visiting friends in Appleton. He reported that his father, Dr. T. T. Beveridge was improved in health, but that the family was dissatisfied with its new home in comparison with its former home in Appleton.

The government engineer's office at Oshkosh issued formal notification that navigation on Lake Winnebago and Fox river closed the day previous.

The barroom of the Northwestern house was burglarized the night previous and three dollars were taken from the cash register. Entrance was effected through a rear window.

The county board reduced the fees of justices and constables to \$1. They had been \$1.50 for vagrants and \$3 for drunks and disorderlies.

The winners of the second ski tournament of the winter series were Judge C. T. Moskow, John Lanchester, A. Nugent of Kaukauna and H. D. Ryan.

A little girl named Persche, residing near Lohrhyrst, left backward into a tub of hot water and was severely burned.

### HAD TO FIX HIS WHISKERS FIRST

Akron, O.—Before Judge Partee here would try Frank Dallas on a charge of drunkenness, he made Dallas fix his whiskers. Dallas appeared in court with one-half of a luxuriant mustache. He explained that the other half was clipped off while he slept. "It's indecent," opined the magistrate and pagod a barber.

### SNAKES CAUSE SMALL PANIC

Columbus, O.—Five big snakes—all of 'em dead—threw a neighborhood here into a panic. They didn't know the snakes were dead. Carlisle Richards, who called the cops, says when he looked in the street first there was only one dead snake. He thinks the others came along and, seeing their dead comrade, died of grief. One of the snakes was six feet long and one a dither with five rattles.

### LOST HIS DIGIT IN A STREET CAR

Des Moines.—"Gimme back my finger," I paid my fare," yelled Vincent Celsi to the street car conductor. "You can have it now; the company can't use it," said the conductor as he opened the platform door and let Celsi remove the tip of his finger, clipped off by the sudden closing of the spring panel. Celsi's at the City hospital.

## Deadly Dust.

By Frederic J. Haskin.

Washington, D. C.—Dust explosions from a bewildering variety of causes and almost all sorts of dust continue to worry manufacturers and the Government. Since the method of collecting dust in factories, supposedly a real safeguard, caused an explosion, chemists in Government and private laboratories are hunting more anxiously than ever for solutions to the dust danger.

It has for some years been understood that grain dust suspended in sufficient quantities in the atmosphere might cause an explosion if that dust were lighted or a spark of electricity released. Lately, however, dust from sugar, chocolate, rubber, fertilizer, starch, paper, and other materials has proved explosive. A campaign, against carelessness in dusty grain elevators and flour mills has cut down the number of accidents there, but at a recent conference on dust explosions it was shown that in the 12 months preceding there had been at least seven serious explosions in other kinds of factories, in which at least 30 people were killed, and \$7,000,000 worth of property destroyed.

The Bureau of Chemistry in the Department of Agriculture says that it receives many samples of dust from manufacturers who want to know if the particular kind of dust set loose in their plants is dangerous. The prevailing tendency is for the factory owner to think that his plant is immune, but so far tests have shown that every kind of dust submitted, except inert dust—that is, finely ground lime or rock—will explode if sufficiently concentrated.

The reason for this is simply explained by the Bureau of Chemistry as follows:

### Why Dust Explodes

"We might try for some time to burn a block of wood with a lighted match. If we take a knife and chip this block the shavings will ignite more quickly. We might make excelsior and find it would ignite still more rapidly, and then continue by gradual reduction to a degree of fineness until dust is produced, when it is found that the mass will burn rapidly when suspended and diffused in the air. The rate of burning is so rapid that a violent explosion may result. In short, anything that will burn as a solid material will burn when reduced to the form of powder or dust. There is no way entirely to eliminate this dust from a product, and scientific tests have shown that a very small amount suspended in the air is sufficient to start an explosion if brought into contact with fire.

The main safeguards so far proposed are to have dust collected by special apparatus, and to keep it from rising up where it can serve as a fuse. Special window construction for factories is suggested by one engineer to allow the plant to be regularly flooded with air in order to remove dust and freshen the atmosphere. Workmen and managers are being gradually taught to safeguard their own lives by observing precautions. Once it was a common thing for a workman in a flour mill to carry a lighted match into a dim and dusty flour bin. When an explosion occurred, it was attributed to spontaneous combustion, and not to the fact of flame and dust being brought together. Now, factory workers are learning never to smoke, or carry matches about a plant, to keep dust from accumulating on beams, machines, pulleys, and floors, and never to use an open flame in a dusty place.

Even in factories where smoking is absolutely forbidden as a fire prevention measure, an open flame, such as an acetylene torch, is used without thought of danger. How extremely hazardous this is the Government explosion experts have difficulty in proving to workers. But the soundness of their arguments and warnings was plainly demonstrated last fall when an explosion occurred in a mill due to dust being ignited by the intense heat from an acetylene torch.

**Electric Bulbs a Cause**  
So slight a cause as dust collected on an electric light bulb may start a fire, and then an explosion, if the heat from the bulb ignites the dust, and

the globe breaks. This has happened, and it set the electric light companies to work devising safety globes for dusty factories. Experiments testing the safety of electric light fixtures are still being conducted. A vapor-proof bulb with an unbreakable metal guard is being installed in many factories as a precaution against the danger from broken bulbs.

Some investigations are still going forward in the Government, though the Bureau of Chemistry has no longer any funds to continue its work in this field. Dr. Alsberg, chief of the bureau, said at the recent conference that, in spite of lack of funds his bureau would not give up this work entirely. "We always have a little money that we can squeeze out here or there," he concluded, "but about the best that we can hope during the next year is to keep the work alive and do some of the fundamental research that has to be done, so that if we are ever able to take it up again we will not have marked time."

The campaign waged by the Bureau of Chemistry, together with the Grain Corporation, has brought about greater concern on the part of the manufacturers, but explosions still occur. Since last autumn there have been several flour mill explosions, one with \$125,000 property loss, a grain elevator explosion with 14 men killed, and another with 3 men injured. MORE

Four firemen, fighting a blaze in a spice mill were killed last winter when spice dust exploded from the fire, and 13 other firemen were injured.

### Six Girls Killed

Most terrible of all was the aluminum dust explosion which several months ago killed six girls in the polishing room of an aluminum products factory, and burned five others so terribly that they will be scarred and injured for life. This accident seemed all the more a disaster because it was started by a piece of wire becoming tangled in the machinery for disposing of the dust from the polishing. A spark was struck and the dust ignited, causing a terrible explosion. Because of this accident, several improvements in the dust-collecting systems were suggested.

The country in general was first aroused to the havoc a little dust may have caused back in 1917. An elevator blow up, just after the United States entered the war, and enough grain was destroyed by that one explosion to have furnished bread for an army of 200,000 men.

Before that, the wheat farmers of the Northwest had felt the destructive force of dust in connection with threshing. The wheat smut which for the last 20 years has cut down our wheat crops was largely responsible for the outdoor wheat explosions. It is estimated that there are 240,000,000 tiny spores of the smut in one head of smutted wheat. Sometimes infected wheat is 70 per cent or even more smutted; often the amount is much less, but still enough for a cloud of fine dark smut blown about in the threshing to catch a spark of static electricity in the machinery and produce an explosion.

When the cause of the frequent explosions began to be understood attempts were made to ground the threshing machines with wires to prevent static electricity. Then a fan was devised to blow or suck the dust away from the engine. The Department of Agriculture says that it has never heard of any serious explosion occurring where one of these fans was properly installed, and that the insurance companies, which for a time refused to insure threshing machines at all, have reduced the premium on machines equipped with fan apparatus approved by the Government.

The fan device has proved of three-fold value. It was found that it cleaned the grain so that the farmer got a better price for his wheat, and then a way was contrived to have the smut be collected instead of blown away, so that it did not spread over the fields to infect the next crop. The threshing machine difficulty is considered practically solved. But the indoor dust dangers are not yet even fully realized by industry.

## THE QUESTION BOX

(Any reader can get the answer to any question by writing The Appleton Post-Crescent Information Bureau, Frederic J. Haskin, Director, Washington, D. C. This offer applies strictly to information. The Bureau cannot and does not undertake to settle domestic troubles, nor to undertake exhaustive research on any subject. Write your question plainly and briefly. Give full name and address and enclose two cents in stamps for return postage. All replies are sent direct to the inquirer.)

Q. What does a battleship cost? A. E. U.

A. The Navy Department says that the cost of modern battleships is about \$32,000,000. Of this amount \$21,000,000 is for machinery.

Q. What is a round robin? H. S.

A. A "Round Robin" is a document signed by a number of persons in which no one is named as the originator of the idea. Formerly documents of this nature were signed in a circle.

Q. Please give me information concerning the wreck of the steamship "Independence." A. A. P.

A. The vessel "Independence" sank on the February 18, 1853, off the coast of Lower California, and 140 people were lost.

Q. Who invented the depth bomb? Can it be set to explode at a certain depth? E. F. L.

A. This invention is credited to W. T. Unge, of Swedish nationality. Such a bomb is loaded with from 200 to 300 pounds of high explosive, generally T. N. T. It is carried in a special apparatus on the stern of a ship and can be released instantly. It is provided with an apparatus to go off automatically at the desired depth.

Q. Which Senator has served the longest? J. B.

A. The ranking member of the Senate, having had the longest continuous service, is Henry Cabot Lodge, who took his seat first in 1893.

Q. Is the tomato a valuable food? J. W. A.

A. In proportion to its bulk the tomato has not a high food value, as it contains such a high percentage of water. However, the tomato is recognized as a wholesome article of food. It contains 94.3 per cent of water, 0.9 per cent of protein, 0.4 per cent of fat, 3.9 per cent carbohydrates and 0.5 per cent ash.

Q. How many makes of passenger automobiles are there in the United States? J. McD.

A. The American Automobile Association says that there are about 150 makes of passenger automobiles in this country.

Q. Please inform me as to the origin of the dollar sign as we use it. I. M. R.

A. Authorities differ as to its origin. A plausible explanation is that it was the union of U and S meaning United States, the connecting curve of the "U" having been discarded.

Q. How does a spider span a space with his web? L. H. McP.

A. By trailing a thread behind him, a spider is able to drop from any height to the ground, or any solid substance, and to retrace his steps with a certainty to a particular spot. Having once retraced his steps he can drop in another direction, returning along the thread spun on the second trip. Thus will continue indefinitely, during which operation the spider is continually spanning a space with his web.

## Great nights to sleep

If a fellow is tucked in snug and warm with a pair of our (Brighton) outing flannel pajamas.

\$3 and \$4

Of course we have Night Robes of the same material—what kind of a store would we be without them?

\$2.50

We also have a special Union Suit value at \$3.50 that can't be beaten for taking the chill out of a cold morning and giving a man a lot of exercise for his money.

And at \$1.00 and \$1.25 we have box after box of soft woolly cashmere hose that we are making a special drive on to drive in new feet and friends.

Every cold climate comfort is here.

Come on in and get warm.

# SOCIETY Woman's Interests CLUB

Household Children Cooking Fashion

**Weds in Greenville**  
At eight o'clock Thursday evening at the Rev. Leonard Kasper's parsonage, Greenville, will occur the marriage of Mrs. Laura Huebner, 663 Locust street, and Martin F. Abraham of New London. The couple will leave immediately after the ceremony for a trip to the southern part of the state after which they will live in New London.

**Weds in Kenosha**  
Harold Harvey, son of Mr. and Mrs. Alfred Harvey, 674 Rankin street, was married at 3:30 o'clock Wednesday afternoon in Grace Lutheran church, Kenosha, to Miss Mary Pick-er of Kenosha. The young man's parents attended the wedding.

**No One Need Buy Cuticura Before He Tries Free Samples**  
Soap, Ointment, Talcum, etc., everywhere. Samples free of Cuticura Laboratories, Dept. 2, Malden, Mass.

The couple was attended by Miss Boettcher of Kenosha, and Raymond Roberson of Milwaukee. Mr. and Mrs. Harvey will live in Appleton after a wedding trip. The groom is connected with the Yankee Paper and Specialties company of Menasha.

**Hard Times Party**  
A hard times party will follow the regular business session of the Beavers Thursday evening at South Masonic hall. Music and dancing will be the entertainment, and lunch will be served. Members are required to wear clothes appropriate to the occasion or become subject to a fine.

**Surprise Party**  
A party of friends surprised Mr. and Mrs. Richard Bohm at their home in Rose Hill Sunday. Cards and music furnished entertainment for the afternoon, followed by a dinner. Among the guests from Appleton were Mr. and

Mrs. Robert Schiebe, Mr. and Mrs. John Schiebe, Mr. and Mrs. Arthur Schiebe, Mr. and Mrs. Edward Schiebe, Mr. and Mrs. Fred Moxier, Mr. and Mrs. Fred Bartz, Mr. and Mrs. Edward Kressin, and Mr. and Mrs. Rudolph Fouth.

**Football Banquet**  
The annual All College banquet in honor of the Lawrence College football team will be given at seven o'clock Saturday evening at Hotel Appleton. E. D. McChesney, coach, will act as toastmaster. Football honors will be announced and the "L cards" awarded. A special invitation has been extended to all Lawrence alumnae and former students of the city and community to attend. The committee is desirous of as large a representation of alumnae as is possible.

**Rebekah Party**  
Merriment was furnished the members of Deborah Rebekah lodge after the business meeting Wednesday evening at Oak-Follow hall when a session of an old-fashioned country school was held. Mrs. G. L. Finkle acted as teacher. There was a spelling match and some interesting lessons on the "three R's." A milk lunch was served during the school session and a regular luncheon afterward.

**Devotional Service**  
The Star League will have a Thanksgiving devotional service at 6:30 o'clock Sunday morning, Nov. 21. The Rev. A. L. McMillan, pastor of the Baptist church, will address the meeting. Special music will be provided. The offering which will be taken at this meeting, will be used for the needy at Christmas.

**Eagle Ladies Party**  
Eight tables were in play at the Eagle ladies card party Wednesday afternoon at Eagle Hall. Prizes were given to Mrs. Edward Turnow, Mrs. H. Klahorst, Mrs. Walter Koester and Mrs. Paul Schroeder. The third of the series of evening card parties will be given Dec. 2.

**Woodmen Card Party**  
The Modern Woodmen will give their first card party of the season at Rhine Lodge hall Friday evening. The organization meets regularly twice a month and the plan adopted for the coming winter is to make the first meeting a business session and the second a social session. Prizes will be awarded at each party.

**Grocers' Banquet**  
The Appleton Grocers' association will hold its annual banquet at South Masonic hall next Tuesday night. The wives of members and all wholesale grocers have been invited. Music will be provided and an after dinner program is being arranged. An

effort is being made to secure one of the state officers for an address.

**Eastern Star Banquet**  
Three hundred Eastern Star members enjoyed a banquet in honor of the past matrons and past patrons of Pi-delta Chapter Wednesday evening in Masonic hall. About fifty members from Kaukauna attended, among them J. B. Delbridge, grand patron of the state. Guests were also present from Neenah, Menasha and Oshkosh.

At the banquet table each past matron was presented with a cut glass basket filled with flowers and the past patrons were given bouquets. The tables were beautifully decorated with cut flowers, and an orchestra played during the evening.

Mrs. P. L. Hackbert, chairman of the evening's entertainment, and also worthy matron, was presented with a beautiful silver basket filled with roses and ferns. She was also given an armful of chrysanthemums by the past matrons.

**Miss Christensen Weds**  
At nine o'clock Thursday morning at St. Joseph parsonage, Miss Katherine Christensen, daughter of Mr. and Mrs. N. L. Christensen, 1242 Eighth street, became the bride of Louis Rankin, son of Mr. and Mrs. L. Rankin, 636 Locust street. She was attired in a dress of dark blue tulle with a silver cloth hat trimmed with seal, and carried a shower bouquet of opelia roses. Father Joseph performed the ceremony.

The couple was attended by Miss Emma Rankin and John Schreiber. Miss Rankin wore a dark blue dress with a tulle hat. A wedding breakfast was served to about 30 guests at the home of the bride's parents, which was decorated with chrysanthemums.

**Peeters-Holzer Wedding**  
The wedding of Miss Lorraine Peeters, daughter of Mrs. Patrick Randerson, Little Chute, and Leslie Holzer, son of Mr. and Mrs. G. L. Holzer, 776 Tonka street, took place at 9:30 o'clock Thursday morning at the parsonage of St. John church in Little Chute.

The bride wore a brown traveling suit with a picture hat and a bouquet of chrysanthemums. Mr. and Mrs. Richard Peeters attended the couple. The young people left on a wedding trip to Rockford, Ill., immediately after the ceremony. They will reside at 606 Pacific street, Appleton, on their return.

**Little Chute Party**  
The Woman's Catholic Order of Foresters of Little Chute gave a card party in that village Wednesday evening that was attended by eighty players. Schafkopf and "rumm" were played and prizes were awarded.

## Faded Hair Now Easily Renewed

Every woman knows how important it is to keep her hair attractive and free from gray, faded streaks. Proper care of the hair is the very

cornerstone upon which beauty culture is built. Do not despair because you cannot afford the fees asked by beauty specialists for tinting gray hair but do it yourself at home with no other aid than a bottle of Brownatone, the same preparation used by the foremost hair dressers. **Special Free Trial Offer** For convincing proof that with Brownatone you can regain and preserve in your hair its natural, original color—whether golden, black or any shade of brown—renew Brownatone yourself. Guaranteed absolutely harmless. Send 11 cents to pay postage, packing and war tax, to The Kenton Pharmacal Co., 540 Coppin Bldg., Covington, Ky., for trial package. Or get a regular package from your druggist. Two colors: "Light to Medium Brown" and "Dark Brown to Black." Price 50c and 51c. Tear this out.

It was the first party of a series to be given during the winter.

**Birthday Surprise**  
Twenty-five friends surprised Jacob Moder at a party at his home on State street Tuesday evening in honor of his birthday anniversary. Games, music and dancing were the diversions. Prizes were won by Jacob Moder, Ethel Krueger, Irma Springstroh, Mrs. T. Arndt and Clarence Kaston.

**Sorority Party**  
The pledges of Phi Mu sorority are entertaining pledges of other sororities in a series of teas at the chapter rooms. One group was entertained Wednesday afternoon and another group will be their guests Thursday afternoon.

**Revere Circle Meeting**  
The J. T. Revere Circle, ladies of Grand Army of the Republic, will meet at 7:30 o'clock Friday evening at South Masonic Hall. A class of candidates will be initiated.

**Wins Elk Prize**  
Mrs. Theodore Belling won the prize at cards at the Elk ladies card party Wednesday afternoon at the Elk club. Five tables were in play. Lunch was served after cards.

**Sorority Banquet**  
Sigma Alpha Iota sorority will entertain active, patronesses and alumnae at a formal banquet in the French room of the Sherman House Saturday evening. A musical program will be given.

**Westminster Chapter**  
The Westminster chapter of the Presbyterian church will meet Friday evening with Mrs. Blanche Kubitz, 680 Franklin street.

**Bridge Party**  
Mrs. Charles Foss entertained at bridge Thursday evening at her home at 682 Bennett street. The prize was won by Mrs. Albert Ness.

## Ask Any Druggist For Pyramid

**Why Suffer With Itching, Bleeding or Protruding Piles When You Can Have Blessed Relief?**

## Union Leader Has Message of Interest to Workers Here

**RECOMMENDS KOZAK TO THOSE IN ILL HEALTH**

John Fleming, secretary of the Building Trades Council, Milwaukee who is well known in Fond du Lac where he has addressed large audiences of union workers, joins bankers, business men and prominent society women in endorsing Kozak, which is now being explained here.

stomach had been giving me trouble. After eating I would feel all stuffed-up and drowsy and often suffered from heartburn and gastritis. Since taking Kozak, however, I eat heartily without fear of any bad after effects. My sleep is restful and I awaken feeling refreshed in the mornings." Kozak, the "10,000 Formula" which seems to quickly master stomach, kidney, liver and catarrhal troubles when all else fails, is now being explained by "The Kozak Man" at Schlintz Brothers drug store, College avenue and Oneida street, daily.

## Advices Ordinary Buttermilk for Wrinkles and Enlarged Pores

**This Good Looking Young Woman Uses Old Time Recipe of Buttermilk Cream in a New Way—A Gentle Massage With Fingers Before Bedtime All That is Necessary**

**Buttermilk and Cream—Simple Remedies Best—Keeps Face, Hands and Arms in Exquisite Condition—Soft, Smooth and Beautiful**

The old-time application of Buttermilk and Cream to whiten and preserve the skin and remove harsh little wrinkles and ugly sallowness is grandmother's recipe and women throughout the country are again using it to insure a beautiful complexion and snow-white hands and arms. Buttermilk, however, is not always obtainable, but a specialist has at last perfected a method of concentrating buttermilk and combining it with a perfect cream, which you can buy in small quantities ready to use at any first class drug store by simply asking for "Howard's" Buttermilk Cream. There is no secret about it and is guaranteed to give you the best results. There are no doubt about the result—it's just a common ordinary buttermilk in the form of a wonderful cream, gently massage with the finger tips around the corners of the eyes and mouth.

To get the best effect, be sure to follow the simple directions. Druggists guarantee a noticeable improvement after the first application or they will refund the money. Schlintz Brothers, Voigt's Drug Store, Union Pharmacy, The Pettibone-Peabody Co., adv.

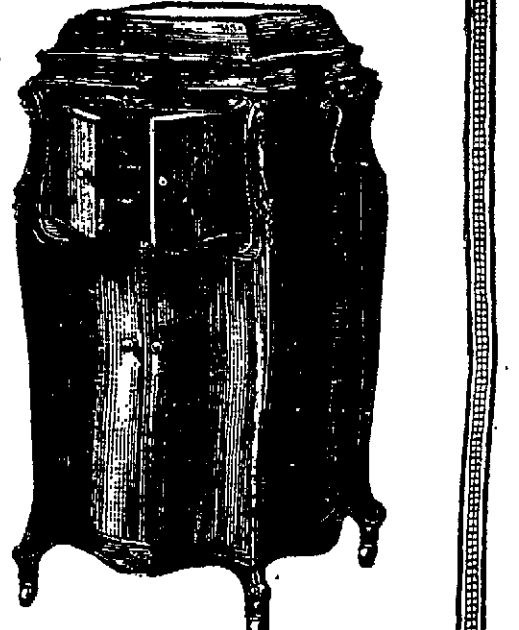

## COMMON WITCHHAZEL FINE FOR SORE EYES

It is surprising how quickly inflammation is helped by common witch-hazel, camphor, hydraeol, etc., as mixed in Lavopuk eye wash. One elderly lady, who had been troubled with chronic eye inflammation for many years, was greatly helped in two days. We guarantee a small bottle of Lavopuk to help ANY CASE weak, strained or inflamed eyes. Aluminum eye cup FREE.—P. G. Walker, druggist and all leading druggists. adv.

## And shoes have their place in Thanksgiving

At the family dinner, the game, the dancing party—at every Thanksgiving festivity, shoes take a prominent part. They must be smart—to match the surroundings; they must be comfortable—to share in the happy spirit. It is possible, it is easy, to get shoes smart enough and comfortable enough for the demands of this occasion.

In the Red Cross Shoe—made to fit the foot in action—you have a shoe dainty, trim of line, and with a shapeliness that lasts. And because it is made to move naturally with the foot in action—not against it—there is no pressing or cramping. Comfort is perfect from the first. Our selection of new Red Cross Shoe models is wide in variety and pleasing in value. Come in early and make your Thanksgiving choice. Prices

NEW LONDON'S NEW  
ARMORY IS IN USE

Guard Company and American  
Legion Join in Dedication  
of Building.

(Special to Post-Crescent)  
New London—Thursday, November 11. Armistice Day was a red letter day in the history of New London. Members of Company C are receiving much praise for their splendid efforts in completing the new armory. The day was celebrated by Co. C and the American Legion. Every member of

the company and the Legion invited on couple to the banquet at which James B. McGowan, Green Bay, was the principal speaker. The banquet was followed by the presentation of a beautiful large flag to the American Legion, by the Woman's Relief Corps. Dancing was enjoyed until after midnight. The hall was decorated with bunting and flags. Company C has 48 enlisted men. The boys will drill at the armory every Monday night, but the new armory will not only be used as a drill hall and club room, but as a lounge and quarters as well. They will also have indoor sports such as wrestling, boxing, fencing and basketball. The state has been divided into eight sections each of which will hold basketball tournaments and the winning

10 FOREIGN COUNTRIES  
SEEK FARM KNOWLEDGE

Madison—Graduate students from ten foreign countries are attending the Wisconsin college of agriculture this year because of its leadership in agricultural science. India, England, Canada, New Zealand, South Africa, the Philippine Islands, Sweden, Japan, Brazil and Colombia are represented in the enrollment. A few are sent to Wisconsin by their governments, but the larger number come of their own accord, to receive higher training in their chosen fields. Nearly one hundred and twenty-five students are doing graduate work, according to J. A. James, assistant dean of agriculture. About one-half of them are from outside the state. The departments of plant pathology and agricultural economics attract the largest number.

team in each section will compete at Milwaukee for state honors. It is expected that five auto trucks which were allotted to the New London boys will be here before spring. A fifty foot indoor target range has been sent to the local company by the government.

Several residents of Waupaca county received this week's copies of the first of the Waupaca County Holstein magazine, published by J. N. Dance, county agent. The motto of the editorial staff is "more and better Holsteins in Waupaca county." The magazine is published four times a year. Alumni of the New London High school held a meeting at the library Friday evening and elected the following officers: Miss Bernice Swift, president; Miss Melda Pelzer, secretary; Raymond Knapstein, treasurer. They decided to give the alumni ball, which is an annual event on Wednesday evening, December 29.

Emil Schellin, a pioneer resident of Caladonia township, died after a lingering illness. He was 59 years of age and had resided on the same farm nearly all his life. Burial took place at the Caladonia cemetery.

The body of Paul Learman, who died in France, arrived here last Friday and the funeral was held from the home of his parents, Mr. and Mrs. Charles Learman in Liberty and was attended by several hundred people. Paul Learman died in France Sept. 29, 1918. The first military funeral in New London was that of Reinhardt Learman Paul's younger brother, who also was a soldier and was killed in the early days of the war.

Mr. and Mrs. Henry Steingraber, an aged couple residing at Maple Creek, celebrated their 55th wedding anniversary. There were guests present from Lake Mills, Potosi, Mannwa, Lebanon, Sugar Bush and New London. Nearly all the guests were relatives.

LANG CASE GOES  
TO JURORS TODAY

Jury Will Have Four Verdicts  
to Pick From in Kenosha  
Murder Case.

Kenosha—The jury which on Thursday will have in its hands the fate of Frank Lang, on trial here for the murder of Charles Padini, former wealthy theatre man of Kenosha, will have an opportunity to choose from four verdicts, according to an announcement made by Judge Beiden to the attorneys Wednesday afternoon.

Judge Beiden declared that in his instructions to the jury he would submit four possible verdicts, three degrees of murder and a finding of "not guilty."

The first, he said, would be murder, for which the only penalty is life imprisonment. The second would

FARMERS, ATTENTION!  
Wanted to buy dressed poultry.  
We can use all you have.  
Phone 224 or call at  
Hopfensperber Bros. Markets

be murder in the second degree, which implies the taking of a human life in a manner evidencing a depraved mind, with a penalty of from fourteen to twenty-five years' imprisonment, and the third, murder in the third degree, which implies the taking of the life of another while intent on the commission of another crime, in this case, robbery, with a penalty of from seven to fourteen years' imprisonment.

The presentation of the case by both state and defense was completed shortly after 4 o'clock on Wednesday, and court was then adjourned until 10 o'clock Thursday morning.

Four hours will be given for pleading the case, which, with the instructions to the jury, should mean that Lang's life will be with the jury not later than 4 o'clock Thursday afternoon.

PERSONAL ITEMS ABOUT  
STEPHENVILLE PEOPLE

(Special to Post-Crescent)  
Stephenville—George Jolin returned home from a trip to Dakota Tuesday.

Mr. and Mrs. Joseph Komp, attended the Equity box social and dance at Hortonville Tuesday evening.

TWO BEAR CREEK PEOPLE  
ARE CLAIMED BY DEATH

(Special to Post-Crescent)

Bear Creek—Mr. and Mrs. William Lehman and family of New London spent Sunday at the J. Malliet home. Miss Katherine Dempsey is at Monico, where she is bridesmaid at the wedding of her cousin, Henry Rohan. Miss Maud McGinty was an Appleton visitor Monday.

Mrs. William Mankie of New London was a visitor at the Charles P. may home Friday.

Walter Tietz, who had an attack of appendicitis was hurried to St. Elizabeth hospital at Appleton Monday evening.

Mr. and Mrs. James Johnson and family of Maple Creek spent Sunday with Mr. and Mrs. A. McCrone of the village.

Mrs. Maud McCrone and John Crowner of Eaton, Canada, left for their home Tuesday evening after spending several weeks with relatives in Bear Creek and vicinity.

Miss Gladys Herdick joined her sister at Oshkosh Saturday and spent the day shopping.

Mrs. Joseph Mares was pleasantly surprised Sunday evening by a large number of friends who helped celebrate her birthday anniversary.

Amanda Schuess, 20 years old, daughter of Mr. and Mrs. William Schuess, died at Riverview Sanitarium Thursday. The funeral was held from the Lutheran church at Nicholson Monday. Rev. Mr. Jaeger was in charge. The decedent leaves her parents, two sisters and two brothers.

John Ruddy of Minnesota, and Edward Ruddy of Waupaca, spent the last two weeks as guests of their parents, Mr. and Mrs. James Ruddy.

A large number of girls surprised Agnes Lorge by giving her a shower Wednesday evening.

Mrs. Mary Rice of Oshkosh is visiting relatives in this vicinity.

Joseph Monty of Wittenberg has moved his family to the Lempe farm.

Raymond Powers and bride of Marinette visited the J. Halloran family over Sunday.

Arthur Malliet of Michigan is visit-

ing his parents, Mr. and Mrs. Jule Malliet.

Mrs. Margaret Costello and son are living on the Rice farm.

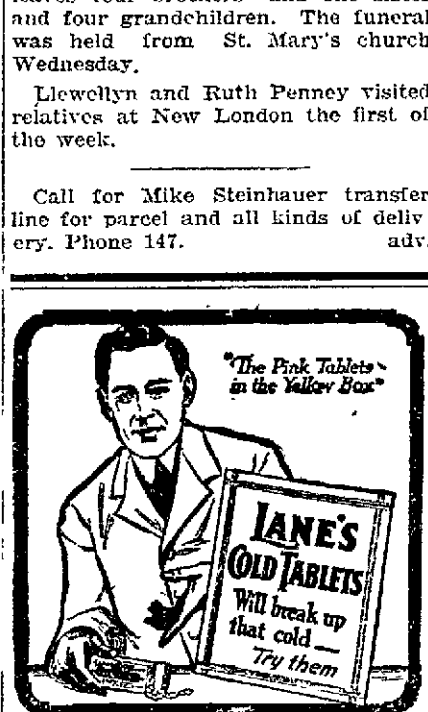

P. D. Nolan and John Nolan of Aniwa spent the week end with their mother at the Hilker home.

Joseph McCrone of Helena and Steve McCrone Jr. of Riverside were visitors at A. McCrone's home the first of the week.

John Hildebrand died at his home in the town of Bear Creek Sunday, following a paralytic stroke. The deceased was born at West Bend Oct. 13, 1852. He was married to Anna Christ in Oct. 1882 and since had resided at Bear Creek Corners, village of Bear Creek, town of Deer Creek and Bear Creek. He was a harness maker by trade and held the office of constable for many years while living in the town of Deer Creek. He leaves his wife and eight children, Willard, John, Charles and Joseph of Bear Creek; Mrs. Amelia Christ of Brownsville; Sister Salvina of Itasca, Wis.; Sister Conrad of Peoria, Ill. and Mrs. Margaret Gradl of Dale. He also leaves four brothers and one sister and four grandchildren. The funeral was held from St. Mary's church Wednesday.

Llewellyn and Ruth Penney visited relatives at New London the first of the week.

Call for Mike Steinhauer transfer line for parcel and all kinds of delivery. Phone 147. adv.

WOULD DOUBLE AID FOR  
VOCATIONAL EDUCATION

Madison—State aid of \$500,000 instead of the \$250,000 granted at present will be asked of the legislature by the state board of vocational education. It was announced here on Tuesday. A rapid increase in the number of industrial schools is given as the reason.

The state has agreed to meet half of the expense of maintenance and teachers' salaries, while the cities are to bear the other expenses. Since the special session of the legislature last June the number of vocational schools has jumped from thirty-two to forty-eight with other cities about to start the training.

One Pie Free  
At your grocery  
See coupon

Real Lemon Pie  
At its best—Almost ready-made

Now Lemon Pie of the finest sort comes almost ready-made.

It is made by experts for you. All the ingredients come in the package, so you simply add water.

The sugar, the egg yolk, the powdered milk, the corn starch and tapioca all come ready-mixed. The lemon essence—derived from lemon peel—comes in liquid form in a bottle.

Add water, cook a little, and you have a real lemon pie filling made exactly right.

An expert cook may make an equal pie, but it takes much time and trouble.

That is unnecessary now. In Jiffy-Pie a few cents buys it almost ready-made.

It is made by the makers of Jiffy-Jell—the real-fruit dessert with the flavors in bottles. Jiffy-Pie is just as perfect as is Jiffy-Jell.

We ask every home to try it at our cost. Learn what delicious pie it makes, how easily and quickly. Then the queen of pies will be ever at your call.

Save your own time when we are making such matchless desserts for you.

Don't wonder about it. Go get a pie and let us pay the grocer. Then you who love good lemon pie will serve it many times as often.

FREE  
To Users of Jiffy-Jell

We will buy the first package of Jiffy-Pie if you are a Jiffy-Jell user. Present this coupon to your grocer and buy two packages of Jiffy-Jell.

Then your grocer will give you free one package of Jiffy-Pie. And we will pay him for it. Do this now, for this offer is temporary. We buy only one package for each home.

Buy 2 packages of Jiffy-Jell of your grocer and get one package of Jiffy-Pie free.

Present This to Your Grocer and Buy Two Packages of Jiffy-Jell

Write your name and address below. Your grocer will then give you—free—a package of Jiffy-Pie.

To All Grocers

Send us three coupons which you receive with your bill, and we will pay you your full retail price.

Jiffy Dessert Company  
Wauchesa, Wis.

We have delivered Jiffy-Jell and Jiffy-Pie as above.

GULBRANSEN  
Player-Piano  
(Pronounced Gul-BRAN-sen)

Dance at Home Any Time—the Gulbransen Never Tires

WHEN friends drop in, put on a lively fox-trot, kick the rugs aside, push the furniture against the wall—start a good time with your Gulbransen. It's fun to watch the party brighten up. The Gulbransen never fails to break the ice, cheers up the stupid, gives the live ones a real time.

You can get all the latest music in player-rolls. Brilliant jazz and rag tunes that just make the piano talk, dreamy waltzes. The Gulbransen makes ideal music for home dancing, wonderful tone and smooth rhythm.

Easy to Play

You'll find everybody wants a turn at the Gulbransen. It's so easy to play, pedals without effort, responds so delightfully. You can be breathless from dancing—all tired out—yet find it rests you to play this remarkable instrument. You have never tried a player-piano that required so little effort.

The Gulbransen dealers named below offer you the opportunity to try a Gulbransen—to test its easy-playing and exquisite "pedal-touch." Be sure to play it yourself. It's more fun than listening.

The Gulbransen is so wonderfully responsive it soon becomes a part of you. And with the new Martin Method instruction rolls you can learn to play like a finished pianist.

Nationally Priced

Gulbransen Player-Pianos, three models, all playable by hand or by roll, are sold at the same prices to everybody, everywhere in the United States, freight and war tax paid. Price, branded in the back of each instrument at the factory, now includes six instruction rolls (Martin Method) and our authoritative book on home entertaining and music study with the Gulbransen.

## POSTPONE HEARING ON STREET CAR FARE BOOST

The Wisconsin railroad commission this morning notified Appleton city officials that the hearing on the application of the Wisconsin Traction, Light, Heat and Power company for authority to increase its street car fares, has been postponed from Nov. 23, to Nov. 30. The hearing will be held in the city hall here.

The commission issued a notice Tuesday that the hearings on applications for increased gas and electric rates have also been postponed until Nov. 30.

## Ends Stubborn Coughs in a Hurry

For real effectiveness, this old home-made remedy has no equal. Easily and cheaply prepared.

You'll never know how quickly a bad cough can be conquered, until you try this famous old home-made remedy. Anyone who has coughed all day and all night, will say that the immediate relief given is almost like magic. It is very easily prepared, and there is nothing better for coughs.

Into a pint bottle, put 2 1/2 ounces of Pinex; then add plain granulated sugar syrup to make a full pint. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, the full pint saves about two thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly, and tastes pleasant—children like it.

You can feel this take hold instantly, soothing and healing the membranes in all the air passages. It promptly loosens a dry, tight cough, and soon you will notice the phlegm thin out and disappear. A day's use will usually break up an ordinary throat or chest cold, and it is also splendid for bronchitis, croup, hoarseness, and bronchial asthma.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, the most reliable remedy for throat and chest ailments. To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

## MANY DONATIONS TO H. S. AUCTION

Much Interest Is Shown in Charity Sale Next Wednesday Afternoon.

Assurance that there will be a plentiful number of articles offered for sale at the high school senior class auction for charity next Wednesday afternoon is contained in the announcement that several stores have offered donations without waiting to be solicited. Several other stores, visited by solicitors, have agreed to add to the collection.

All kinds of articles are offered, from food stuffs to articles of clothing. Students are contributing candy,

## KINSMAN EXPLAINS CITY GOVERNMENT

People Are Responsible for Their Government, Women Are Told.

"The people as a whole are responsible for the government of our city," declared Dr. D. O. Kinsman in his address on "City Government" before the civics department of the Woman's club Wednesday afternoon.

"The city government is one of the most interesting and also one of the oldest forms of government. The so-called city state was established in Egypt centuries before Christ. The Greeks, and to a somewhat lesser degree the Romans had it. Some of our present city forms may be traced back to the earliest history of the human race. The cities have passed through the three stages of monarchies, aristocracies and democracies.

"The city government is the evolution of five centuries of history. It has passed from the hands of a single ruler into the hands of the few, into the hands of the men, and finally into the hands of the men and the women. Therefore we, the voters and the people as a whole are responsible for the government of our city.

"After all it is easier to make the world safe, for democracy than to make democracy safe for the world. All Fit Together

"The township, city and village governments do not overlap. They fit together like a picture puzzle. One individual can not be at the same time under the laws of the township and city. They both have their distinct areas in which they have jurisdiction. Above these three primary governments are the county, state and federal government. The man living in a city is first subject to the laws of the city, then the county, state and nation.

greatest number, a total of 75 tickets. The money will serve as a reserve fund, to finance the activities of the league.

## Says His Prescription Has Powerful Influence Over Rheumatism

Discoverer Tells Druggists Not to Take a Cent of Anyone's Money Unless Allenru Completely Banishes All Rheumatic Pains and Twinges.

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. Schlitz Brothers Company, Voigt's Drug Store, Union Pharmacy have been appointed agents for Allenru in this vicinity with the understanding that they will freely return the purchase money on the first two bottles to all who state they received no benefit.

## NAVIGATION WILL CLOSE NOVEMBER 25

Engineer's Office Announces Close of River Season for Thursday.

Navigation on the Fox and Wolf rivers will close on Thursday, Nov. 25, according to information received Thursday morning from W. V. Judson, Milwaukee, colonel of the engineering corps. The information was sent to the United States engineering office here. Navigation opened April 12.

Last year the river season was closed Dec. 6 but boats were not using the river for several days prior to that date. It is said that with the exception of coal barges, very few boats have been on the river since early this month. It was reported from Oshkosh that part of the river froze over last week and that at Green Bay ice had formed on the water.

The season closing next Thursday has been one of the busiest in many years. Thousands of tons of coal have been transported from the docks in Green Bay to manufacturing establishments along the river. An effort is now being made to deepen the channel so that larger cargoes may be carried.

No barge either empty or loaded has attempted to get through the government canals in Appleton for several days on account of the thickness of ice. The last barge that passed through Lake street draw bridge broke its way by being forced upon the ice by the tug until the ice gave away beneath its weight.

al, but a city which has changed from the special to the general charter may never change back to the special.

"Charters are issued for four classes of cities: First class, cities of 150,000 population or over; second class, less than 150,000 and over 40,000; third class, less than 40,000 and more than 10,000; fourth class, less than 10,000 and more than 1,200.

"Charters recognize the voter as the power," continued Dr. Kinsman. "The city along with the county and federal governments, exercises delegated power, while the state holds residual power. To illustrate specifically, if the city of Appleton wanted to build a music hall and the charter does not specify the right to build a music hall, it can not be done. On the other hand, if the people of the state wanted to build a music hall at Madison, and the laws of Wisconsin do not forbid building of a music hall it can be done.

## May Recall Officers

"There are three types of city officers, the law making, law enforcing and law interpreting and applying. Three per cent of the voters may nominate a candidate by signing a petition. Then if the voters are satisfied with the candidates, he may nominate in the primaries. If the officers elected are not competent, they may be forced out of office by the 'recall.' The terms are short for city officers anyway.

"Qualifications for officers are that the candidate must be a voter. The salaries are fixed by the city council, which may change the salaries by a two-thirds vote."

## Inheritance Taxes

E. C. Smith, attorney, paid to Louis A. Petersen, country treasurer, Wednesday an inheritance tax of \$113.48 on the estate of Charles Warner. A. F. Appel, executor, paid an inheritance tax of \$18.50 on the estate of Nicholas Berckles.

## LESS MEAT IF BACK AND KIDNEYS HURT

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You—Drink Lots of Water

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

### PICTURE LONDON SLUMS

AT CHURCH MOVIE SHOW

The program for the First Congregational church Friday will consist of a Mary Pickford play, "The Dawn of Tomorrow," and a reel educational film. The feature is a picture-ization of Francis Hodgson Burton's novel dealing with life in the London slums.

Special music will be provided, and an offering will be taken. Children under 16 years of age are expected to attend the 4:30 o'clock matinee performance.

## PRACTICAL WORK NEEDED IN SCHOOLS

More Practice and Less Theory Is Urged by Lawrence College Instructor.

Prof. H. C. Cooley of Lawrence college spoke to the teachers of the Appleton schools Wednesday afternoon in the high school auditorium on the subject "Teaching for Good Citizenship and Personal Efficiency."

"It is my opinion," said Mr. Cooley, "that modern teaching is being taught too much from books without thought

of the practical side." Prof. Cooley said that in the town where he had lived a railroad passed about a block from the school. The students used to watch the trains go by. One particular train had the appearance of a number of cabooses hitched together, but the teacher never told her students that that train was the one which carried the mail from Chicago to New York.

In that town were several industries. A great many eggs were shipped daily; there was a carding mill and a carpet weaving factory; and there was scarcely a boy in the town who did not know the procedure in the manu-

facture of those articles. But the teacher of the school never explained to the pupils how the articles were marketed or how they were shipped to the city.

"The education which children at that time received was of more value than much of the education of today," said Prof. Cooley. "Although the boys and girls had very little schooling, their practical experience carried them on in the world, as well as the boys and girls of today who have received a good school education."

Prof. Cooley said that then the girls had no patent canning machines for their work in school.

He said that now the domestic science girl knows how to bake a pie or

paring a whole meal than she could by reading and studying any number of books.

The speaker said that a certain community was in need of a new building. The principal and the manual training teacher agreed that the building could be built by the manual training classes.

"The whole building was erected by the boys, and there was more education gained from the building of that school than there would have been in building models of a school."

But practical education can be carried too far like anything else, Mr. Cooley said. The teachers have to work within the means at their disposal.

The speaker believes that a revolution of the study of civics is being brought about because of the right and duty of the women to vote.

He thinks that teachers will show more interest in the study, and consequently will impart a better knowledge to their pupils.

**Care for Children**  
Mr. Cooley said that girls should be taught to perpetuate the race. They should be taught how to care for a baby, thru practical experience if possible. The speaker appeared to be opposed to the present method of teaching from texts; and gave numerous instances of boys and girls in the past who had made good from practical knowledge which was not gained in a school.

He said that students should be trained to self reservation. They should be taught that there are others in the room and others in the world.

The student should be taught to take only one chair, only one place at the table, and only one pair of scissors.

"The world is turning to its teachers," the speaker continued, "saying that the burden of handling its children is too great, too confusing, and it is asking the teachers if they cannot find some way that will relieve it of the burden."

## SCHOOL CONSOLIDATION IS SUBJECT OF DEBATE

A debate on the question of consolidating the township schools is to take place on Thursday afternoon at the Woodlawn school as part of the "good school week" program. The affirmative will be upheld by Miss Lucille Rohm, Miss Leona Maas and Wade Lettis. The plan will be opposed by Miss Eva Mossholder, Miss Helen Gillespie and Henry Haferbecker. The pupils chose Mrs. O. Mossholder, Mrs. Frank Lettis and Miss Mable Gillespie as judges.

An added feature will be a talk by P. W. Miller, one of the pioneers living in the town of Grand Chute. He was a student at the Woodlawn school 55 years ago and will tell some of his early experiences.

## We Say to You As We Say to All—

LET tone decide which phonograph you buy. Listen to different instruments, ask to have different records played. Compare The Brunswick with other phonographs.

Insist on a phonograph which plays ALL records, such as The Brunswick. Be not content with a phonograph designed for but one make of records.

The Brunswick plays ALL records, whatever make. And plays them exactly as they should be played, with the proper diaphragm, needle, etc. And our all-wood Tone Amplifier gives them greater richness.

The new Brunswick Method of Reproduction is the most advanced and finest way of playing yet devised. All old standards are now discarded.

We will be glad to prove to you that The Brunswick is the one phonograph you want. And to offer the same way of proving that Brunswick Records bring new standards. We abide by your decision.
